

Dear Salters

I'd like to take this opportunity to thank the team for their wonderful help with my recently purchased car.

Having never bought a car before I was glad to be able to trust the sales people and know that I was getting the best for my money.

The service that was provided was of excellent quality, everyone I spoke with was more than helpful and very welcoming.

I genuinely felt that the sales people valued the needs of me as the customer and weren't simply pushing me for a sale.

I had actually seen the car I purchased online and it was exactly as described. It's not very common to find such quality used cars at such a reasonable price so I was very happy to find it was exactly as it had appeared (and not too good to be true!).

I will definitely recommend Salters to anyone I know that is looking to buy a car.

Thank you kindly for the effort and care that was taken to provide me with the best.

Regards

Emma Resson
