

Dear Sir

I would like to make the following comments regarding your Company, Management, Staff and the motor vehicle which was recently purchased from you.

When a person visits a used car location with the view to purchasing a motor vehicle which has been advertised, that person has the opportunity of checking the vehicle as to its soundness and value for money.

As I live 1000km away and a visit to inspect the car was not practical, I had to rely on the honesty of the sales person I spoke to on the telephone.

I was assured the vehicle was in excellent condition and had been inspected by a motoring organization and found to be in good order.

I was not disappointed when I travelled to Queensland and saw the car which was as represented by the sales person.

All the staff I dealt with in purchasing the car were courteous and professional and I have no hesitation in recommending Salters of Moorooka to anyone interested in buying a used car.

Yours faithfully,

Grahame Windred
